incredible collection of 808s, snares, and kick sounds at a truly unreal price. from vintage 808 kick sounds to new school snares, is a collection of 21 808 snares, kick drums, reverse 808 sounds, and more. if you just spend all your time trying to simply get the sounds to work for you and never widen your horizons to take charge of the creativity and art of production, then your knowledge will just be an electronic copy of someone else's. you will be a happy user. i love being a part of the growing and evolving drum kit community; and it fills me with immense pride and pleasure to be able to surpass the world of electronic drum kits with my own custom drum kit. if you take the time to learn all the components of your kit like i have taught you in this set, you will be able to call yourself a master and own the drums in your own musical world. another reason why i created this free drum pack is because i want to create the kick start you needed, to really get you on your way and motivate you to get started yourself. i personally don't like the idea of my library content being locked behind a fence. my intention is to give as much as i can away to the world. just like my music.. 5ec8ef588b
