**1. Field of the Invention** The present invention pertains to fluid filters, and in particular pertains to fluid filters having a pre-filter which may be efficiently and quickly employed to quickly remove contaminants from the influent fluid stream prior to passing the fluid stream through the filter itself.

**2. Description of the Prior Art** Various types of filters for filtering the influent fluid stream into the associated process fluids have been

**employed for many years. Typically filters have been constructed of a ceramic material, and may be said to be in the "ceramic" filter type. These filters have certain advantages, especially where the desired purity or flammability of the desired processed fluid product is not critical. These filters are capable of filtering along the full range of contaminants present in the influent fluid, to thereby assure that there will be no impairment of the desired product purity or its flammability by contaminants flowing through the filter. Intramedullary nailing of displaced intracapsular fractures of the femoral neck. This prospective study evaluates the results of intramedullary nailing of displaced intracapsular fractures of the femoral neck. From September 1986 to December 1990, 31 patients with displaced intracapsular fractures of the femoral neck were treated by intramedullary nailing. All the fractures were classified by the method described by AO. There were 20 type B2, 5 type C1 and 6 type C2 fractures. The mean follow-up period was 17 months. Union was achieved in 22 patients (70%). There were 10 cases (32%) of avascular necrosis and 3 cases (10%) of late deep infection (greater than 4 months). In this series, intramedullary nailing gave satisfactory results in displaced intracapsular fractures of the femoral neck if the fractures are carefully classified and treated surgically with appropriate bone grafting and fracture reduction.

In September, Netflix acquired rights to the critically acclaimed podcast "The Adventure Zone." In an announcement, the streaming service described the podcast as featuring a "lively banter and wild fantasy world of iconic characters from modern mythology and classic literature." But now, after a mixed reception following its November 4 release, the streaming platform has had something of a change of heart. The company is delaying the second season's release by four months, and has removed the short-form documentary about the podcast from its website. According to Netflix, "The Adventure Zone Season 2 will launch on Friday, June 20th." In a Netflix press release, the company describes the decision to delay the launch of the show as a "bit of a learning experience," which seems like a pretty disappointing reaction for a show with one of the highest-profile launches in a year. Why the delay? The decision to delay the release of the second season seems to be mostly down to timing and the fact that the second season didn't produce any new episodes since the first one. Netflix frequently delays its projects so it can figure out whether they work, but even then, most projects are
