Spanish 2a edView all editions and formats. Llamas JosÁ© MarÁa. Rating: 8.38 Year: 2003 Description: This book presents the author's Spanish language curriculum for younger students, designed for 1 hour per week. As the educational material used well-known songs and poems. With the help of games and poems, children become familiar with Spanish phrases, learn to understand the content of songs, play games related to Spanish folklore. The materials for Spanish lessons are chosen so that they can be used to create short dialogues and monologues. For children ages 4-7. Series: Preschool Buy This allowance covers the initial stage of learning: getting acquainted with the phonetic alphabet, the basic rules of reading and pronunciation. Allowance is designed for independent work at home, without the constant supervision of the teacher, but can be used in conjunction with any other training manual as part or basis of it. Series: Elementary School A series of "Grammar in Games and Fun Exercises" - these are educational and developmental games for children. They include exercises designed to teach your child the basic rules of grammar and vocabulary of a foreign language. Each lesson is dedicated to a specific topic. Children with interest perform exercises that develop attention and memory. In the process of playing, they assimilate the grammatical system of the language, expand their vocabulary and learn to correctly construct phrases and sentences. Series: Games for the Road The "Grammar in Games and Fun Exercises" series is a series of educational and developmental games for children. They allow your child to easily and enjoyably learn letters, practice reading and do lots of creative exercises. Game No. 3. Learning to read. The game teaches children to read in syllables and words, and to make up stories from pictures. For kids 4 years old. Series: "Grammar in Games and Fun Exercises.
