What's new in Fifa 22:

- EA.com and click the "Pre-order & Save Big >. FIFA 22 was unannounced at gamescom earlier this year. We hope to have FIFA 22 release date in a couple of weeks. But snppro.com already have FIFA 22 release date. FIFA 22 release date in November 22. But FIFA 20 is November 14, twenty-one out of two in that year, the new year have eight days(Nov. 02 -22), they have more days in that year than last year. So we expect that FIFA 22 will not release on October 29. I think we're more correct.
- Player Career will be more interesting and better.I really don't care that FIFA 21 is better than FIFA 19 and FIFA 20. EA should not use the same data of in FIFA 21. I think that FIFA 22 game will be much better than FIFA 21 game, I think it's better than Fifa 20. If FIFA 2022 send the data to Player Career, we can know more about its player character from the data.

In FIFA 22, we also introduce a new method of creating a new player - the "Young Player Creator," a new Signature Formation, enhanced online connectivity, and a new animated Player Emotion System and Open Player Control. Additionally, the all-new "FIFA Control" concept offers a new, more immersive way of controlling players while delivering quicker, more accurate on-the-ball controls, as well as an introduction to the all-new RAS interface. [FIFA 22 Gameplay Trailer] NEW PLAYER CREATOR The Signature Formation and an "Edit Builder" allows for creation of every possible combination of 11 attacking players and 11 defensive players, and takes into account individual playing styles, skills and attributes. The Young Player Creator is the new way to create new players, making it easier than ever to build your dream team in multiple formations. The result is a much larger pool of players, which will allow you to create more unique, all-rounded players. NEW SKILL TRANSFER SYSTEM The new Skill Transfer System allows you to scout, train and develop young players in a new Skills and Attributes section, using the updated Scout. This powerful new tool will allow you to develop more players, and to personalize a player's stats in the box. With the option to play your training sessions in the training ground, as well as with the live game, the Skill Transfer system allows players to spend more time developing their young players, achieving the right balance between stats, team performance and the player's individual personality.
