Features: - FIFA player models are the best representation of real-life footballers using the largest and most robust model generation pipeline in the world. A single physical model used in game contains more than 1.6 million vertices. - Powerful tools allow the players to move naturally on-field. The ball physics provides a smooth and responsive feel for players to pass, shoot, dribble and perform tackle actions in realistic and dynamic gameplay. - Players now over-hit towards the goal to perform accurate on-ball actions. Players now walk, run, sprint and jump with the technique and precision of real-life players, while retaining the speed, athleticism and agility of previous FIFA models. - Player differentiation is at a whole new level with an unprecedented number of distinct styles and techniques. The player models are able to perform a greater variety of actions than the previous generation of players, and each action is uniquely represented to fit the player's style. - The next-generation ball physics deliver more accurate ball and player movement in more realistic and dynamic gameplay. In addition to the expected effects of wind, rain, snow and lighting conditions, each surface type has its own unique properties, with 100-meter sprint and cornering speed, ball speed and distance traveled, trajectory and flight, player acceleration and turning speed, and ball spin. - Players now apply their physical

---

traits and technique to execution of more player-to-player interactions in dynamic gameplay. The attributes of real-world players, such as height, reach, acceleration, slalom speed, handling, strength and agility, have been reflected in more aggressive tackling and aerial duels, which are performed with more variation than ever before. - An all-new Skills Shot System allows players to attack the goal in varying situations: off-ball, on-ball with a short or long pass, low and high shots, and penalty kicks. - Fifa 22 Cracked Accounts delivers its largest roster ever with more than 22,000 players from around the world. All 22 national teams are represented in gameplay with significant squad updates for each team. - Career Mode contains deeper career progression that begins at the grassroots level and continues all the way through to the International stage. The player can now maintain his position with the club and remain in the country at the highest level of professional football. - The new FIFA U-17 Girls' World Cup mode provides a more intense experience for

### **Fifa 22 Torrent (Activation Code) (Latest)**

This game mode allows you to build your own dream team of players from over 120 leagues and 19 national teams. A new feature in Ultimate Team is the ability to set up a 'global' transfer embargo. This allows you to stop potential transfers from taking place to another

---

team. This may be useful to prevent an opponent from finding a substitute for their star players, or to prevent a player on loan from being taken back permanently.

**Pitch Interactive Simulations** - EA SPORTS has teamed with Pitch Interactive to bring its revolutionary Pitch Interactive technology to FIFA 22. New to the game, Pitch Interactive Simulations provides a dynamic and highly realistic pitch surface, more accurate ball physics, enhanced crowd and pitch team animations, and many new other systems. In addition to the pitch, Pitch Interactive Simulations technology has been used to create the weathering on the pitch surface, as well as the Virtual Pool 8.0 technology to create the interactive splash graphics and striking of goals.

**EA SPORTS Introduces Virtual Batting Cages** - For the first time, EA SPORTS allows you to simulate a batting cage with your opponents.

**EA SPORTS Introduces New Camera Modes** - In addition to the long sought after 1v1 Ultimate Confidence mode, and 2v2 X Factor mode, you can now also control the camera directly from the toolbar. This allows you to capture a memorable moment in real time and share it later.

**EA SPORTS Introduces Touch Control** - Now you can directly control the ball by swiping, dragging, and tapping. These new innovative controls allow you to perform so many of the common actions that you would typically do with the analogue stick.

**Cavity Defenders** - In FIFA Ultimate Team, players from Königsblau/Cavity defenders are now playable in Career Mode.

**Dribbling Mastery** - New to FIFA 22 is a

---

Dribbling Mastery feature that challenges you to master the art of dribbling by mastering certain creative moves. Advanced Scout Motion Engine - A new advanced Scout Motion Engine ensures that the game is more responsive to your player movement. 3D Player Trajectory - 3D Player Trajectory gives each player realistic hand-to-hand and non-contact movements. As you run, your teammates automatically follow your every move. EA SPORTS Introduces Player Optimisation - EA SPORTS has created Player Optimisation. With this feature, you can play and practice FIFA 22 for PC on your own, or for a friend's computer,

### **What's new in Fifa 22:**

- **New FIFA Career— Real Pro can now be the manager of a club, as the title he manages changes day to day depending on in-game circumstances. As a player, Real Pro plays out his career from the youth ranks through to the top leagues, managing his players and the club through all the struggles and rewards.**
- **New Ultimate Team— Players return from the past in ultimate team. Bringing together the most renowned players from FIFA 90 through to FIFA 17, the Ultimate Team introduces historic Heroes and legends from the past. With the new team update, players can be mixed up to build the Ultimate Team of their dreams.**
- **New Characters— 3D faces can now be captured, and the new Character Creator gives players new options to bring their game characters to life. In the Ultimate Team, 15 new playable characters can now be included, with 8 iconic tag-**

---

**team fighters - such as Pelé and Maradona - released as part of the new FIFA Club, in celebration of the 20th Anniversary of FIFA.**

- **More Features— Joggers give players new options to step out of a warm-up with controlled movement up to 100 meters.**
- **Team-mates become more important— Playing without your teammates, who are out of position or waiting to take a pull or pass, can still be a winning tactical approach but can decrease the chances of success. The AI now starts to cover teammates to help protect the play and provide protection for opponents.**

#### **FEATURES:**

- **User Interface---** New and intuitive controls, such as being able to make directional inputs using the right analog stick.
- **Playbooks---** Takes players back to a time when football was played at a higher level of intensity.
