(Page) (Page) (Page) (Page) (Page) (Page) (Page) (Page) Thank you for your valuable comments. We are always eager to hear your thoughts. We hope to hear from you soon. The Fantasy RPG staffQ: Is there any evidence that Mary actually existed? There are many details of the Gospel story which appear to be at odds with known history. At the same time there are witnesses who have said they have heard the story of Jesus from relatives of Mary, and they are therefore quite believable. Given the overall plausibility of this story of

Jesus, and the lack of any contemporary historical reference to Mary, is there any ancient or modern source which claims to be a verifiable, documented, non-anonymous report of actual historical events relating to Mary? A: As a former Catholic seminarian (emphasis on former), I must say that I have read a ton of research on Mary and other female figures from antiquity. I will provide a few links for anyone interested: Here is a list of a few solid books on Mary from Barnes and Noble. From a Catholic perspective, I'm sure you've heard of the "Marian hypothesis", which is a theory put forth by Dan Brown in his book *The Da Vinci Code*. Basically, the theory is that Mary was, in fact, a very well-known figure in 1st-century Palestine: The Gospels speak of her as a Magdalene, and mention that she is married to Joseph (a common occurrence for women of her time). In the books, they also point to the existence of, among others, a statue of Mary, with Joseph, that were found on a Roman statue site, that confirm that Mary had existed historically. I can't say that I have read any formal research, but the articles referenced below do contain some research: First, here's a short article from *Time Magazine*. It's a little old, but I think it pretty well explains the theory and also has some great pictures of the statue. bff6bb2d33
