In this study, we determine whether the addition of balanced salt solution (BSS) to a local anesthetic mixture for ultrasound-guided regional anesthesia (UGRA) leads to decreased interoperative and postoperative complications and decreases pain during mobilization. Patients were randomly assigned to receive either 1.5% mepivacaine and 0.5% bupivacaine mixed with normal saline (NS) or the same volume of bupivacaine and NS mixed with 30 mL of 2% BSS. ## **What's new:**

**12 AUG 2017** Designed for those who prefer to play solo as much as they prefer to have the freedom to choose their own adventure, each story revolves around a main character you play and choices you make that can change the course of events in the game. You can fast forward or rewind any action sequence while exploring the overworld to inspect it at your leisure. Choose a side quest from the "Help" list and the quest will begin. Please note: players who are locked into playing as Succor Edict or Merciful must save again on Xbox One.

**Story** An agent of Order, a knight struggling to maintain a sense of purpose after a brave friend was murdered, and a woman cursed to turn everything she touches to flame - all collide as this unlikely trio embarks on a quest to find the legendary Hoard of the Deady in the Dark City of Necromancy. It is your job to find the Hoard, and make sure it doesn't fall into the hands of evil. What happens when your choices lead to the wrong path? What happens when Necromancy is stronger than either of the two sides you chose? Will any side win? Your journey is only just beginning.

**Story Key to Action Sequence** By watching the action sequences in the story scenes, you'll be able to skip or rewind the cutscene. You'll also be able to access optional dialogue options, side quests, and more. After you save (or abort) a quest, and the player enters the overworld, you'll need to use the arrow keys to set your path, or left-click to move the character in that direction. You may use your left mouse to move your character using the walking animation, or your right-click to use the running animation (both free motion and sprint). You'll see your character's base meter in the middle of the screen. The red bar on the right side of the screen will indicate the duration of any effects (i.e. the duration of the curse). When you see a notification that there is a large amount of XP waiting for you in Zuldazar, it will be posted to the bottom of the screen. By clicking on the notification, you will return to Zuldazar. Zuldazar The mission has been completed, the rewards have been
