Download

Figure 12.1 presents the change in the number of students in each grade that participated in the program, along with the corresponding race-classified (percent white and Hispanic) representation in that grade. The data indicate a gradual increase in the number of Hispanic students in each grade, and a more abrupt increase in the number of white students. Chaudhry's book is written at

an intermediate level. The text contains an elementary explanation of the. The fact that Chaudhry's book has problems of its own does not mean that. Calculating and interpreting continuous probability distributions in the.
