Omar from Nyeri Review Date: 21/10/2017 ★★★★★ So far my experience with this program has been very good. It is easy to use, and also very effective. I have been using a lot of other conversion softwares before trying this software and I am glad I switched over to this one. No doubt, it works great. It does exactly what I want it to do and it also does the job faster than any other software I used before. I will certainly recommend it to everyone I come across who needs to convert XLSX to CSV files. To conclude, I think this is the best conversion software I have ever used. Tuesday, May 31, 2017 A Little Sunday Fun There are very few things that make me happier than the simple act of going to the park with a friend, someone to visit, enjoy and goof around with. An afternoon like that sounds like such a simple thing, and I can spend a day just floating along in the sun, soaking in the beauty and hearing the birds, but that doesn't make it any less fun for me. One of the things I love about the park is the accessibility to various forms of entertainment. Every now and then I will ask friends if they want to play with friends or do something when they are in the area.
