Varranger2NewVersionepub An important update to Vibracom 2.0.1.24 has just been released. Vibracom 2.0.1.24 Final Vibracom 2.0.1.24 Final The update includes the following fixes: Arguably one of the most important fixes is the fix for #69 which was the problem of BROTHERS AGAIN not being able to play at the same time. Some of these fixes are: Completely removed the minimum resolution of 1920x1080 Added a new level in the menus Added a control panel for controlling the units Added a "general" control panel for controlling the game Added a remote device control for playing at the same time as a unit Added a Visualizer control panel which allows you to adjust the range and visualizer Added support for the new web browser FireFox 47+ Added support for. 595f342e71
