"Butterfly's Dream" (in some English translations) is a skit episode of Square Enix's Square Enix Collective. The episode was released for free on the website as long as the signature campaign ran. It premiered on March 27, 2016 and concluded on June 19, 2016. Synopsis The channel Master manages the Summer Triangle, a college specifically for those interested in design or art, where students live communally. A school of illegal wizards studies monsters on the island of Sylvania, the only land the monsters have left. The wizards are secretly scientists searching for a legendary "special" ingredient, a green orb, supposedly magical in nature. After the wizards' actions unintentionally unleash a plague, a girl named Sally meets Master, an old man on the island who runs the school. Under his care, Sally is allowed to attend the wizard school, and begins working for him, while investigating the origin of a butterfly-like monster called "Mantompenta". Characters Sally Sally is the protagonist of the episode. She enters Sylvania on a mission from the wizards, where she meets the students of the school. She is actually a thief and was sent to gather information of any kind of sentience on Sylvania, after a certain plan fails. As soon as she lands there, she attempts to infiltrate the school with the intention of stealing a weapon, but is attacked and injured by a bird-like monster called Mantompenta, who consumes her powers and seemingly kills her. However, she does not succumb to death, but rather ends up in a driftless state that leaves her conscious, but ignorant of the past, and asleep after having a wet dream. Master Master resembles an old craftsman-like man who wants to use Sally to destroy the wizards. However, he gives her some of her powers back, in exchange for helping him. For most of the story, he is unaware of the type of wizard he is. While he might be searching for a magical item called the "Legendary Special Combination" (often seen in the episode as the Dash and Dash Plus, which are the devastating but only available items), this was not part of his plan. He is also oblivious to the fact he is a wizard. Mantompenta Mantompenta is a butterfly-like creature with telekinetic powers known as "butterfly-wings". She is one of the only "animate targets" to use her wings as
