The lands west of High Rock, the Lands Between, are now a muddy battleground where the dregs of the population eke out a new life, scrambling to survive by any means necessary. A handful of people, called the Travelers, travel between the land of Tamriel and the Lands Between to acquire and sell things

and people, and are now in the midst of a desperate struggle to remain alive when a terrible evil stirs the bogs and marshland east of the city of Ustengrav. The first thing he notices is that many of the tiny yellowed tiles on the sidewalk have sunk below the level of the rest of the street. He looks at the grey stones of the houses and wonder how they fit together without sinking into the ground. He looks at the grey columns of the buildings and wonder why the mortar holding them together have turned yellow.
