In case of missing pieces, some others have said some of the same things that are in the thesis. It is a partial list of acknowledgements. This thesis is the most personal work I have ever done. Hence, I sak that you acknowledge my efforts and research by citing my work. If there is anything wrong in the way my research was carried out and/or presented, it is my work and I request to be scrutinized closely. My work will be subjected to intensive scrutiny. I have yet to see another thesis that I have yet to see another that I have yet to see another that this thesis is highly academic and so complex. Bioinspired hierarchical superhydrophobic-superoleophilic surface from spin-coated graphene oxide-based coating films. One of the most advantageous features of birds' feet (i.e., pigeon's feet) is a superhydrophobic surface that maintains low-surface-energy liquid droplets. Inspired by this, we have developed an easy-to-handle method to fabricate a novel hierarchical superhydrophobic-superoleophilic surface from a carbon-based coating film. Self-assembled monolayers (SAMs) of single-walled carbon nanotubes (SWNTs) were success
