The Main Story

Warriors of the Elden Ring

Born Exiled

What is your past? Why have you been condemned to the freezing underworld?

And as all living things seek to protect that which they believe to be their life force, is there something that comes with you?

The Ultimate Legion

During the chaos caused by the fall of Arvisheim and the unripe initiation of a new Lord, there were three forces that rose against the existing order: the Heroes, the Disciples, and the Dark Legion. After the battle, the "Warriors of the Elden Ring were born, " a group of select adventurers summoned by the Elden Lords to help the Legion. Now, a new journey begins.

I had always felt distant from the Elden Ring, as if the scenes of that moment being played out in myth and legend had locked me out. Now that I am beginning to understand the circumstances that gave rise to their founding, I realise that that feeling might have been the arrogance of a kid that hadn't a clue. It is also possible that each and every one of them has their own particular reason for only listening to what they want.

Now, I don't know who I am. I have had my memories altered and have been brought here in the role of your savior. However, I don't recognise anything of the past, so I cannot focus on teaching you anything. I know nothing more than a stranger, and I also feel older, as if I am looking at a flower dew-covered tree about to bear fruit.
